

# New Zealand Diploma in Construction (Level 6) Quantity Surveying

Gain skills in high demand. Learn about quantifying projects, estimating building costs and materials, and tendering and administering contracts. Work in an office and on-site. Get the best of both worlds. Many of our students get part-time work in the industry in their second year.

It's a two-year programme (students must complete year one and year two) and you'll come out ready to start your new role. In fact, many of our students get part-time work in the industry in their second year.

This qualification meets the academic requirements of the [New Zealand Institute of Building](#) and provides entry as an affiliate member to the [New Zealand Institute of Quantity Surveyors](#). Membership to NZIQS is free while you are a full time student.

## What you will learn

- Understand building construction
- Develop skills in cost estimation and how to create preliminary cost estimates and cost plans
- Learn how the principles of published data relate to the provision of services for a project
- Measure and manage quantities of resources
