

Bachelor of Information Technology

Develop your skills in creating programs, web pages, networks and databases. Learn the fundamentals of software design and development. Build knowledge of the IT industry. Around 60 percent of the programme is practical – you'll learn by working on real problems.

Whitireia and WelTec offer a NEW joint degree in Information Technology. The degree was designed with the IT industry to ensure our graduates are well-prepared with the skills required for the 21st century. The NEW degree offers five new majors and provides a well-rounded education designed for today's IT workplaces. In addition to the technical skills, You'll learn communication skills, management processes, teamwork and complete an industry project in your final year. This degree has been accredited by the industry, represented by IT Professionals New Zealand.

The programme prepares learners with well-developed knowledge, skills and attributes for IT employment. Students may select a specific major endorsement for their study or may choose to study the unendorsed Bachelor of Information Technology, which has no specified major. The award of the degree states the major endorsement:

- [Bachelor of Information Technology](#)
- [Bachelor of Information Technology \(Software Development Major\)](#)
- [Bachelor of Information Technology \(Applied Data Science Major\)](#)
- [Bachelor of Information Technology \(Cyber Security Major\)](#)
- [Bachelor of Information Technology \(Interaction Design Major\)](#)
- [Bachelor of Information Technology \(Networking and Infrastructure Major\)](#)

Potential Career options

Graduates of the Bachelor of Information Technology have detailed knowledge and skills in selected areas of IT for employment as an IT professional.
